April 2022 – DEIS Publication/Public Hearings.....	19
March 2023 – Refined Preferred Alternative P Announcement	22

MEDIA OUTREACH

Introduction

The project team worked with media outlets and reporters throughout Southern Indiana to share information about the Mid-States Corridor project, especially at key public milestones. This is a key step to keep the public informed with accurate information about the project.

News releases were issued at milestones and to reflect project updates. These included the project kickoff, two rounds of public information meetings, the availability of meeting materials at area libraries following both public meetings, project office information and updates to the project schedule.

As a result of these efforts, information about the Mid-States Corridor project appeared more than 450 times in newspapers, television reports and radio reports. This material has been summarized under the following project timeline categories:

- Mid-States Corridor Project Launch
- Public Meetings Planned
- Meeting in a Box Materials Available
- Preliminary Alternatives Advance for Study, Release of Screening Report, Public Meetings Ahead
- Meeting Materials at Area Libraries for Public Input
- Project Office to Close Temporarily Due to Covid-19
- Project Team Continues Work, Maintains Availability
- Preferred Corridor to be Identified in 2021, Office Reopens by Appointment

All of the articles enumerated here are in the project record.

July 2019 – Mid-States Corridor Project Launch

Media coverage surrounding the launch of the Mid-States Corridor project focused on study details and next steps for an improved north-south highway connection in Southern Indiana. Key themes included anticipated general alignments, timelines and project information. More than 25 media mentions were noted. The following articles are in the project record.

February 2021 – Preferred Corridor to be Identified in 2021, Office Reopens by Appointment

Media coverage highlighted the updates to the project schedule and the expected identification of the preferred alternative in the Draft Environmental Impact Statement (DEIS). Several news articles focused on an anticipated release in Fall of 2021. Later project team members revised that to announce that the DEIS would not be published until April of 2022. Coverage also included the reopening of the project office by appointment. Key themes included future identification of a preferred corridor, updated project schedule, next steps and how to make appointments for meetings at the project office. Nearly 45 media mentions were noted. The following articles are in the project record.
